

Valuescards™

Valuescards® - a values assessment tool

Valuescards provide a comprehensive guide to understanding links between personal and organizational values. Created as a deck of cards, each card represents one clearly defined value. Valuescards not only help integrate values into career and life decisions, but remain available to 'sort out what's important' whenever needed. As an assessment tool, Valuescards provide unequalled reassurance and positive reinforcement.

Valuescards can be used individually or in group workshops for leadership development, team building, retirement planning/counselling, conflict resolution or organizational change. They are available in English, French and Dutch, come with detailed instruction cards and worksheet and are easy to understand and use.

The FACILITATOR'S GUIDE is a must for the professionals using Valuescards in groups. The Guide provides step-by-step instructions, examples, and timing advice.

Valuescards® plus 1 worksheet @ CA \$35 ea.; Facilitator's Guide @ CA \$50 ea. PLUS shipping and handling and applicable taxes.
